

wästberg / w171 alma

Product Information

The starting point for w171 alma is a circle of soft sine waves diffusing light. The shape is based on a rotated sine wave, where light and shadow create a readily recognisable character. The lamp doubles as a solitary, for example freely suspended above a table, and in a group in a larger room – where it can create a pattern of floating points of light, like a ceiling of lights.

The light image of concentric circles can be varied depending on the choice of light source in the E27 socket. The soft and reduced shape creates a pleasant atmosphere and lends a sculptural feeling, even in daylight, when the satin matte finish and colour of the surface emerges. With its slim silhouette, w171 alma can be mounted directly onto the ceiling or wall, or suspended. This makes it easy to adjust the light to the requirement of the situation.

Design: Tham & Videgård

Varied light	The experience of the light can be varied depending on the choice of light source in the E27 socket.
Sculptural feeling	The soft and reduced shape creates a pleasant atmosphere and lends a sculptural feeling, even in daylight.
Multiple mounting options	Ceiling, wall or suspended.
Single or in a group	The lamp can be used as a solitary or in a group, even like a ceiling of lights.

Wästberg is a Swedish lighting company aimed at bringing back light to human proximity, by restoring the private spheres man has been deprived of during decades of misguided pursuit of efficiency and standardisation. The universally acclaimed lamps are created in close collaboration with some of the world's most renowned architects, designers and lighting experts, and have earned prestigious awards for their combination of aesthetics, cutting-edge technology and resource conservation.
