

wästberg / w171 alma

#### Product Information

The starting point for w 171 alma is a circle of soft sine waves diffusing light. The shape is based on a rotated sine wave, where light and shadow create a readily recognisable character. The lamp doubles as a solitary, for example freely suspended above a table, and in a group in a larger room – where it can create a pattern of floating points of light, like a ceiling of lights.

The light image of concentric circles can be varied depending on the choice of light source in the E27 socket. The soft and reduced shape creates a pleasant atmosphere and lends a sculptural feeling, even in daylight, when the satin matte finish and colour of the surface emerges. With its slim silhouette, w 171 alma can be mounted directly onto the ceiling or wall, or suspended. This makes it easy to adjust the light to the requirement of the situation.

Design: Tham & Videgård

---

<b>Varied light</b>	The experience of the light can be varied depending on the choice of light source in the E27 socket.
<b>Sculptural feeling</b>	The soft and reduced shape creates a pleasant atmosphere and lends a sculptural feeling, even in daylight.
<b>Multiple mounting options</b>	Ceiling, wall or suspended.
<b>Single or in a group</b>	The lamp can be used as a solitary or in a group, even like a ceiling of lights.
