wästberg / **w 152 busby**

Product Information

For a long time, lamps were an electrical experience – the light being evidence of the electrical current that passed through a filament. But now, modern lighting has become unrecognisable, no longer the subject of electricity, but of electronics. Printed circuit boards, micro-chips, diodes and interfaces are now staple ingredients, giving us greater control, conserving energy and providing longer lifespans. This transformation is a chance to establish new possibilities for the meeting point between light and electronics.
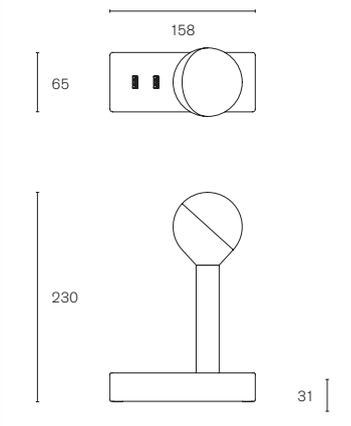

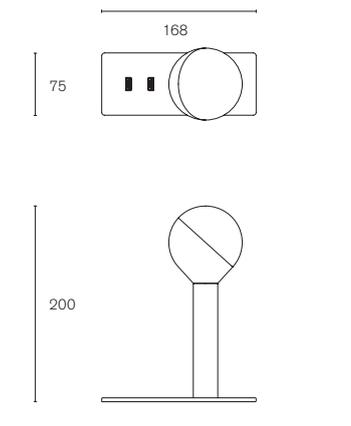

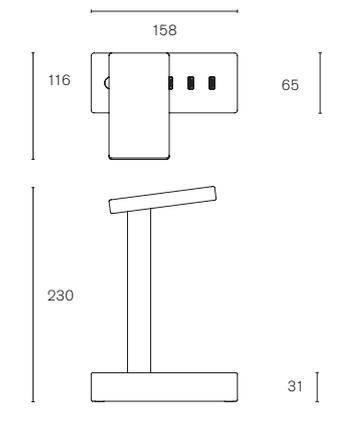

This is not a story about gadgetry (regardless of technical achievements), but rather an affirmation about how we live – wherever light is supplied, power is often also required to charge our burgeoning electronic devices. w 152 busby is an electronic lamp that provides intelligent universal power from three USB outlets, detecting charging requirements and managing them at their fastest rate, no matter how many variable devices are plugged in. It provides a total of 45 W and 9 Amps of power – enough to manage the latest generation of laptop computers. It can be supplied either as a freestanding or wall-mounted lamp, or built into a surface. The w 152 busby illuminates and powers the office, the workshop, the library, the living room and the bedside table.

Design: Sam Hecht & Kim Colin

w 152 busby

Material	w 152 busby is made of aluminium.
Integrated LED	The light technology is based on a highly energy-efficient, high quality LED solution, which gives a warm white light.
3 powerful USB outlets	Features 3 USB type A sockets, each providing 3 Amps (in total 9 Amps), allowing 15 W of power output per socket (45 W in total). Enough power to charge USB-charged laptops.
Power management and device detection	Detects what power is required for any device and adjusts to ensure its fastest possible charge.
Dimmable	w 152 busby features an integrated programmable dimmer switch operated by a button.
Ambient or directable illumination	Two versions are available – an ambient lamp and a directable lamp.
360° rotation	The lamps can be rotated 360° for glare control and light direction.
Multiple mounting options	w 152 busby is available in two versions: one that is freestanding/ wall-mounted and one that can be integrated into a vertical or horizontal surface.
Private or public use	Available with removable or fixed lamp stem for private or public use.

Wästberg is a Swedish lighting company aimed at bringing back light to human proximity, by restoring the private spheres man has been deprived of during decades of misguided pursuit of efficiency and standardisation. The universally acclaimed lamps are created in close collaboration with some of the world's most renowned architects, designers and lighting experts, and have earned prestigious awards for their combination of aesthetics, cutting-edge technology and resource conservation.
